Sustainable Development Goals (SDGs)

SUSTAINABLE DEVELOPMENT GOALS

- They are a set of global goals for development adopted unanimously by all 193 member nations of the United Nations in 2015 as a replacement for the earlier Millennium Goals. They were developed after 3 years of negotiations and consultations with nations across the world.
- These are the slogans for the goals, but they also break down into specific metrics for measurement on the official UN website at sdgs.un.org/goals.
- Other nations have used them as a guiding strategy for developing policy. For example, Mexico created the National Council for the 2030 Agenda which is chaired by the President, currently President Claudia Sheinbaum, involves stakeholders from various government and civil society bodies and is under the Ministry of the Economy
- The U.S. Government, despite pressure from various civil groups, has done very little to implement them. In fact, the U.S. is one of the only high-income nations that has never submitted a Voluntary National Review (VNR) on the implementation of the SDGs and officially rejected and denounced them March of 2025. Local governments like the State of Hawaii and the cities of New York and Los Angeles have submitted Voluntary Local Reviews

How We Can Work Together

Canvass Campaign

- We need individual volunteers to join us on our weekly canvasses into low-income communities.
- We know there are 7,000 uninsured residents in Santa Cruz County and that not all of them are our members.
- Many of our current members are caregivers.

Dental And Medical Benefit Expansion

- We know that with the cuts coming from the Federal Government, access to healthcare is only going to become more scarce.
- We need referrals to local professionals you know who may be interested in participating in our program.

Sustainable Development Goals

- We're working with Justin Cummings and his team to bring forward a resolution to adopt the SDGs in determining County Policy.

We're so excited to continue to work together! Thank you so much!

Santa Cruz County Board of Supervisors
701 Ocean Street, Room 500
Santa Cruz, CA 95060

Re: Support for the 2026 Women's Commission Legislative Priorities

Dear Chair Martinez and Members of the Board of Supervisors,

On behalf of the Women's Commission, we write to respectfully request that the Board submit formal letters of support to our state legislative delegation for the **2026 Women's Commission Legislative Priorities** itemized herein.

As you know, in February 2024, the Board formally reaffirmed Santa Cruz County's commitment as a *Convention on the Elimination of All Forms of Discrimination Against Women (CEDAW)* County and directed the Women's Commission to identify priority areas to advance gender equity and make recommendations related to those priorities. In September 2025, the Women's Commission presented to the Board, identifying key local CEDAW priorities and recommended potential solutions to address inequities and barriers.

The 2026 legislative priorities identified below align closely with the previously identified CEDAW priorities—particularly in the areas of economic equity (Articles 11 and 13), healthcare access (Article 12), childcare and economic supports (Articles 11 and 13), support for justice-involved women (Articles 15 and 9), and addressing systemic disparities through policy and funding decisions (Articles 3, 5, 10, and 13).

Methodology

The Commission identified these legislative priorities using the following criteria:

1. Alignment with priority legislation advanced by either the *California Legislative Women's Caucus* (a bipartisan coalition of women legislators in the State Assembly and Senate that advances policy solutions to improve the lives of women, children, and families) or the *American Association of University Women (AAUW)* (a national organization advocating for gender equity through research and policy);
2. Consistency with the Commission's 2025 CEDAW priorities and recommendations; and
3. Relevance to the most pressing challenges currently facing women and families in Santa Cruz County.

To that end, the Women’s Commission has identified and respectfully requests your formal support for the following legislation:

- **AB-65 – The Pregnancy Leave for Educators Act (Aguiar-Curry)**
 Provides up to 14 weeks of fully paid leave for California public school employees for pregnancy, miscarriage, childbirth, termination of pregnancy, or recovery, without deducting from other available leave. High housing costs in Santa Cruz, combined with relatively low teacher pay, make recruitment and retention challenging. Because the workforce is typically women and unpaid pregnancy leave disproportionately affects them, support for this legislation addresses gaps in employment protections (CEDAW Article 11) that disproportionately affect women and aligns with the Commission’s priority to address gender disparities in workforce conditions and compensation. Additionally, it advances not only the interests of women educators and their families, but their students and the school system at large by facilitating teacher recruitment and retention.
- **AB-788 – Rehabilitation and Safety for Incarcerated Women (Quirk-Silva)**
 Strengthens safety and gender-responsive policies for incarcerated women (CEDAW Article 15). This aligns with the Commission’s previously identified CEDAW priority related to gender-specific, trauma-informed support for justice-involved women, including implementation of the recommendations from Susan Greene’s 2017 report and the priorities identified in the Justice and Gender 2023-2025 Biennial Report, both of which emphasize gender-responsive care, safety, and successful reentry.
- **AB-1570 – Healthcare Coverage: Diagnostic Imaging (Wilson)**
 Requires health plans to provide coverage for medically necessary diagnostic imaging without cost-sharing in cases where follow-up testing is needed after an abnormal screening (CEDAW Article 12). While many preventive screenings (such as initial mammograms) are covered without cost, patients are often subject to significant out-of-pocket costs for diagnostic follow-up imaging, which can delay or deter timely diagnosis. This creates a critical gap between preventive and diagnostic care and potentially contributes to less favorable health outcomes for low-income individuals. Support for this bill aligns with the Commission’s healthcare priorities by addressing both access to timely services and the affordability barriers that disproportionately impact Santa Cruz County women in vulnerable communities.
- **AB-1755 – Ending CalWORKs Work Hour Restrictions (Sharp-Collins)**
 Removes the “100-hour rule,” which limits CalWORKs eligibility for families whose parents work more than 100 hours per month, regardless of how little they earn (CEDAW Articles 11 and 13). By shifting eligibility to be based on income rather than hours worked, this bill ensures that low-income families are not excluded from assistance simply for working more. This supports the Commission’s priority to reduce poverty among women-led households, particularly in Santa Cruz County’s high-cost economy where increased work hours do not necessarily translate to economic stability.
- **AB-1981 – The True Cost of Child Care Act (Aguiar-Curry)**
 Updates childcare reimbursement rates and methodology to better reflect the actual cost of providing care, rather than relying on outdated market-based rates (CEDAW Articles 11 and 13). By increasing provider reimbursement, this bill supports the financial sustainability of childcare providers which, in turn, increases the availability of subsidized childcare slots for working parents.

This directly advances the Commission’s priority to expand affordable childcare access, a critical issue in Santa Cruz County where both providers and families face significant financial strain.

- **AB-1876 – Equitable Care for All Act (Addis)**
Strengthens California law to prohibit discrimination in health coverage based on sex, pregnancy, or gender identity. It ensures reproductive and gender-affirming care is accessible, protected, and free from discriminatory exclusions. This helps to advance equitable healthcare for women, LGBTQ+, and underserved residents in Santa Cruz County (CEDAW Article 12) and aligns directly with the Commission’s 2025 CEDAW priority to protect and expand access to reproductive and gender-affirming healthcare, particularly in the face of funding instability and policy threats.
- **AB-2066 – Pregnancy – Qualifying Life Event (Rodriguez; coauthored by Wahab)**
Designates pregnancy as a qualifying life event, allowing individuals to enroll in health coverage outside the standard enrollment period. This helps prevent delays in prenatal care and reduces financial barriers for low-income Latinas and other women in Santa Cruz County. By improving timely access to coverage, the bill aligns with the Commission’s CEDAW priorities to address barriers to OB/GYN care in South County and prenatal substance use disparities, thereby advancing healthcare for women (CEDAW Articles 12 and 14).
- **SB-1237 – Pay Equity Enforcement (Blakespear)**
Strengthens enforcement of equal pay laws by requiring detailed employer pay data reporting and increasing penalties for noncompliance, helping to identify and address persistent wage disparities (CEDAW Article 11). This aligns directly with the Commission’s 2025-identified priority of gender pay equity. Locally, wage disparities—particularly for women of color—remain a significant concern. Support for this bill allows the Board to advance gender pay equity not only within the County workforce, but across private employers in the community as well.

These legislative priorities reflect the same core issues the Commission identified in its 2025 CEDAW priorities and recommendations to the Board, including healthcare access, childcare, economic security, and support for vulnerable populations. Advancing these bills at the state level is a critical complement to the County’s local efforts to uphold its commitments as a CEDAW County.

Thank you for your continued leadership in advancing gender equity in Santa Cruz County. We appreciate your consideration and stand ready to support the Board’s advocacy efforts as needed.

Sincerely,
